STRUCTURE

Supporting structure realized with 25 mm thick chipboard panel with ABS edging. The frontal modesty panel is connected to the side ones to form a frame on which the worktop is laid and fixed.

WORKTOP

It's made of 25/28 melamine chipboard with ABS edging. Equipped on the lower side with corresponding parts useful for attaching the top to the structure (tie-rods/plugs). Desk depths are 80 or 60 cm and their length are 80/100/120/140/160/180/200 cm. The lateral extension top is 60 cm deep with lengths of 80-100-120 cm. A compact, shaped 160x160 cm top is also available and there is a 160x120 cm version that can be linked on the side with the extension in the 80/100/120 cm sizes.

ACCESSORIES

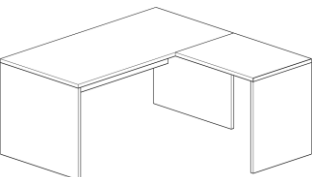

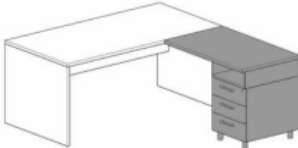

90° connector top for 80 cm or combined 80/60 cm deep tops.

The end top or 'peninsula' (semi-elliptical) allows two desks (depth 60 or 80 cm) to be joined together laterally (they will be separated by a 5 cm gap). Load-bearing chest of drawers with melamine body and steel feet. Upper part is as an object/paper compartment.

NOTES

Rectangular conference tables 200/240-cm-long-paneled-legs and 100 cm deep can be made.
